# HATZ HDS<sup>2</sup>lite SMARTPHONE DIAGNOSTIC TOOL

Applicable to the following MultiQuip equipment models

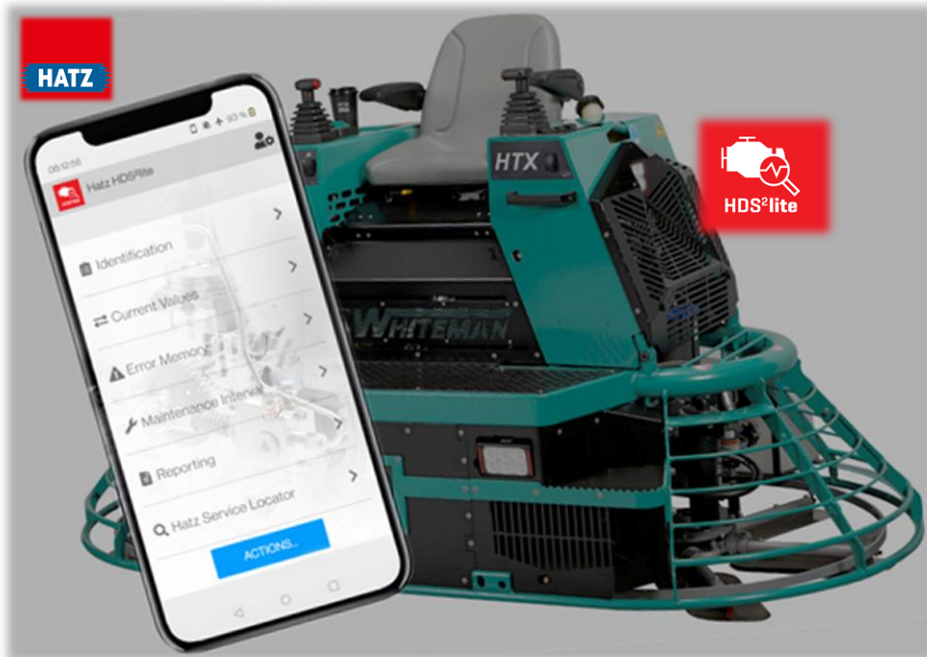

**With H50 Series Engine** • HTX6H • STX6H • MQ600H • LS450

**With E1 Series Engine** • MVH308DE • MVH408DE • MVH508DE

Purchase of the Hatz Bluetooth® dongle and adapter harness kit (Model Specific) allows you to connect to the engine's ECM via Bluetooth®. The HDS<sup>2</sup>lite mobile app. provides everything the maintenance personnel needs for basic engine diagnostics via smartphone or tablet.

### Included within the kit are the following standard features

- Professional and powerful mobile diagnostic tool
- Convenient maintenance of the electronically controlled Hatz engine
- Suited for maintenance personnel and operators
- No annual license fees. Regular application updates occur with no additional charges
- PDF generated diagnostic reports to aid in troubleshooting. Contact a Hatz dealer using the dealer locator to jump start the troubleshooting process.
- Wireless readouts of engine data along with trouble codes in real time using Bluetooth® adapter
- Ability to read and clear diagnostic trouble codes
- Ability to reset maintenance intervals after service
- Engine identification
- Download the HDS<sup>2</sup>lite directly from the App Store/Play Store via your smartphone
