PROXIMITY SWITCH SPECIFICATIONS

MQ PART# 52062

Electrical data

Rated operational voltage DC.....	24 DC V
Time delay before availability.....	50 ms
Electrical type.....	DC
Operation frequency	2000 Hz
Supply voltage max DC.....	30 V
Supply voltage min DC.....	10 V

Mechanical data

Connection.....	Cable
Number of wires.....	3-wire
Rated operating distance.....	1.5 mm
(Sensing range)	

Wiring

Installation

When installing or making adjustment to the proximity switch on the lifting cylinder. Turn the switch in till it stops, then turn back a ½ turn and tighten counter nut. This should be within the sensing range for the switch to work properly.
